

Add multiple students to your parent account using Pairing Codes

You will need to generate a Student Pairing Code for EACH child you want to observe in Canvas. Please refer to the Parent Account Instructions Detailed PDF document for details.

1. Log on to your parent account.

4. In the Settings menu, click on OBSERVING.

5. Enter the **Student Pairing Code** that you copied when logged on as one of your other children (not the one you used to create the account) in the **Observing** field.
6. Click on the green **+Student** button to add the second student.

7. All students being observed will display at the bottom of the screen.
8. Repeat steps 7 & 8 as necessary until your whole posse is being observed on your parent account.
