

Greenwood School Corporation is providing FREE accessibility tools including word prediction software and read-aloud software to all students. ***Co-Writer*** and ***Snap & Read*** are Chrome extensions that can be used by all students when logged into their school Google account. And best of all, the extension is already in your student's account! Once logged into Chrome, students can access these tools anytime!

Visit this short video to see the read-aloud tool in action!

ALL GREENWOOD MIDDLE SCHOOL STUDENTS WILL BE TAUGHT THESE TOOLS ALONG WITH OTHERS IN THEIR LANGUAGE ARTS CLASSES OVER THE NEXT 2 WEEKS!!! Each student will also have access at any time to the training provided through Canvas. If you are following your student in Canvas, you can view the full tutorial in the Canvas course titled "Cool Tools for Students". We will update this periodically with new tools as we introduce them to the students.

We cannot wait to share these tools with our students and families!
